3 The sum of Rs 1050 sanctioned to Mr Chinnappa is made up of
(i) Rs 600 - for the support of his family here
(ii) Rs 450 - add expenses necessary in connection with the Montessori course in Italy.

Item (i) seems to be properly payable in Rgone to Mr C's family. It is not clear why it should be remitted to Chicago.

Item (ii) would be payable in Italy early next summer when Mr C resumes his course there. If, however, he has already incurred the charges - direct which the sum of 450 Rs has been sanctioned - payment of this sum may be made in Chicago.

Forwarded to the D of Education for favour of furnishing the information referred to above

Rmarumaswamy
for Secretary

7

I enclose an application addressed to the Diwan received from Mr Paul Chinnappa by the last mail. In this application, he acknowledges that Govt is not responsible for his going to America, but asks for a scholarship of £300 or on a loan basis that to enable him to complete his course at the Chicago University. His professors have sent a recommendation in his favour. I am unable to give any decided opinion, as Mr Chinnappa has adopted a line of his own without any reference to us and I am not in full possession of all the circumstances that led him to give up Italy and go to America. It appears to me that in addition to the amount of Rs 1050 already sanctioned, a loan of £100 may be given, repayable in easy instalments after his return. His leave may also be extended

not received with the file. Please write to the Director of Public Instruction

11 Mr Paul Chinnappa is practically prescribing a course of studies for himself, and expecting Govt to finance him

12 It has been repeatedly observed that he has been attempting to force the hands of Govt to make advances to him, and the Dewan has remarked that "he does not seem to be the type of man on whom we should spend more money" He has been reported to be a man of ordinary capacity, and Govt should have sanctioned Rs 1050 to him (with apparent reluctance) for completing the Professors Course, Govt remarked that was by the Dewan that no further contribution could be made for towards his obtaining Medical Degree at

at Chicago, & by Mr 1st Cr that even the concession already shown appeared more than was deserved

13 Perhaps the addl leave (to Mr end of June 1914) may be sanctioned & Mr Paul Chinnappa left to his own resources

A B 20/1/14

Secy Govt

14 No doubt Mr Chinnappa has been choosing his course of action without previously consulting Govt & on that account has no claim to any help. But all the same he has displayed a considerable amount of enthusiastic perseverence in a good cause & has been able to secure a certain amount of private help in America, so that he is not entirely dependent on Govt assistance, Govt assistance is wanted only to cover a part of his expenses. The letters of the Chicago University Professors which he has enclosed speak favourably of his work & if he secures the Ph D degree of the University I dare say we shall find him of use in the develop-

NOTE—Contn sheet.

ment of educational activities in the State
He might therefore be shown the
following concessions -

(i) Grant of leave without pay till July 15
(ii) a loan of 200 ₹ without interest
repayable after return in easy
instalments [Mr C's Govt Life Insurance
Policy will be security further]
(iii) a loan of 600 Rs without interest
for family maintenance

If after Chinnappa returns we find that
he has made good use of his time &
opportunities we may remit one fourth of
the loan & treat it as a Scholarship

the Edn Dept suggests the grant of £200 & Rs 600 as loan without interest to be repayable in easy instalments Unless his pay is substantially increased after his return, it is not clear how M Channappa will be able to pay off the loan easily The best that can be done & seems appears to be to grant £ 100 as a loan repayable in instalments, as recommended by the Dir of Edn

16 H Dept) 28/1

It is doubtful if M^r Channappa is doing the right thing in introducing himself as a Mysore Govt student in various European Countries and then begging for private charity all round. Professor Henderson's remark "we are doing what we can financially for him is significant The impression that is being created in various countries by his conduct is that the Govt of H H the Maharaja of Mysore leave students deputed by them stranded in foreign countries and throw them on the charity of such countries It is desirable in the interests of the fair name of Mysore that all who go out to foreign countries

NOTE—Contn sheet

G I B—60 (C0— 11 15

financially & otherwise.

from it should stand on their own dignity & I am not sure if Mr Chunnappa by undertaking his journeys & courses without a settled plan & prospective financial arrangements, and by begging for and availing himself of private charity in foreign countries is not doing a distinct disservice to Mysore.

17 If Govt do not take a serious view of the above aspect of the case then the Dy C's recommendation for a loan of Rs 1500 may be sanctioned. If on the other hand Govt think that it is undesirable for them to render pecuniary help to a servant of their own in a foreign university who cannot claim part of his expenses from private charity in the foreign country then a passage by the lowest class should be offered to Mr Chunnappa & he should be asked to come back at once stating that if he does not do so all connection between him & the Mysore Govt may be regarded as having ceased.

[illegible] in l [illegible] t e [illegible] e [illegible]

Subject:- Prayer of Paul Chirmarya for the grant of a scholarship of Rs. 3000 either as a scholarship or a loan to finish his course of studies in America.

---

31 1) Last year Paul Chirmarya, the Head Master of Government Anglo-Vernacular School, Bangalore, was deputed at his own request to study the Montessori system of training children in Rome for a period of 7 months. He was granted a sum of Rs. 2500 plus Rs. 50 per mensem for 7 months as an allowance for his family.

2 After undergoing part of the courses he made up his mind to go to America for studying for the Ph.D. Degree in Chicago and petitioned Government for the grant of an additional sum of Rs. 1800 for finishing the Montessori Course and a scholarship of Rs. 3000 for finishing the Ph.D. Course in Chicago.

I

3 Government after carefully considering the matter granted the first item and declined to grant the scholarship for study in America.

4 In the meanwhile Chirmarya proceeded to America and one of the Chicago University professors found that he has secured a scholarship from this University for reading part of his course and prays for a sum of Rs. [illegible] only to cover him either as a scholarship or as a loan to enable him to complete his studies in Europe and America which will extend till June 1941. He also requests payment of the additional amount of Rs. [illegible] already sanctioned for training in the Montessori system and the continuance of the allowance of Rs. 50 to his family till June 1941. As I [illegible] for the small [illegible] education recommended Rs. 1000 may be sanctioned as a loan and the leave extended

Pages 10-11 of Va office notes

5 The Financial Secretary is of opinion that Chinnappa is not doing the right thing in introducing himself as a Mysore Government Scholar in the various European and American Countries and then begging for private charity all round He considers that a loan of Rs 1500 may be granted to Chinnappa or he may be offered passage money for his return journey and asked to come back at once

6 Paul Chinnappa was deputed by Government to Rome for a par-ticular course of studies After undergoing partial training in the prescribed course he has of his ~~his~~ own accord selected a different course in a different country without obtaining the approval of Government He had evidently not made any settled plans or financial arrangements beforehand 300 £ is too large a sum to advance as a loan without security, and I doubt if he is in a position to give adequate security I am also afraid -- that a smaller loan as recommended by the Inspector General would not enable him to successfully tide over his difficulties The Council recommends that a further sum not exceeding 100 £ may be given as a loan if he can find proper security Leave without allowances may also be extended If he cannot give security second class passage money not exceeding Rs 500 may be offered to him to return to India after finishing his original course If he -- does not consent he may be left to his own resources and asked not to represent himself as a Mysore Government student afterwards

This much however must be said for Mr. Chinnappa -- that he has exhibited a creditable degree of pluck and perseverance and that I see no reason to suspect (as the Financial Secretary does) that he has made any unfair use of the name of the State to obtain help from other sources

Chicago Dec 1 1913

My dear Sir Enc 10-862

I am ashamed to admit that even this week I have not been able to complete the letter It is growing long and owing to the fact that I had to write the accompanying enclosure to Government and obtain the necessary credentials I couldn't finish it You will kindly pardon me I am trying to explain to your honour the trend of modern Education in that letter and of course it takes me to do it well

I hope and trust that you will kindly do all that lies in your power to intercede on my behalf with Government for the part help I have prayed for You know very well sir how much I have spent already on my travels

I don't know how to address the Government and so I addressed the Dewan through you I hope this will not be considered impertinent on my part

May I also request you to send me an official request to Educational institutions of America and Germany and France to allow me to visit those institutions During my visits to some of these places I could not get all that I wanted because I did not have with me the official insignia and permit I hope you will kindly see to it

You will be glad to know that in the Examinations that were held recently in advanced Science and Philosophy of Education I secured a I class This is the basis of the recommendations of the professors which I have enclosed

I am sorry to repeat again that till now I have not received any money I trust it will come soon

I have done my best to see that my prayer will receive a sympathetic

sympathetic consideration from Government and I lay it before you trusting that you will also add your invaluable support to it so that my object and your good wishes for my success will be fulfilled

Believe me

My Dear Sir

Your most obedient and humble servant

(Sd) S Paul Chinnappa

The University of Chicago

24th November, 1913

His Excellency
The Dewan of Mysore,
Mysore Government,
Bangalore, India

Through
The Director of Public Instruction
Mysore Government, Bangalor , Irdia

May it please Your Excellency

I beg to state that I have received the Governmen Orders No 5012 - 13/Edn 233 - 12 - 5, dated the 13th May 1913 and No 1475 - 6/Edn 233 - 12 - 7, dated the th of August, 1913 communicated to me b the Inspector General of Education in his No 217, dated the 28th of August, 1913

I thank Government for their kindness in sanctioning the additional expenses of the Montessori course, to study which Government have deputed me

In response to the Government s reply to my prayer for a scholarship to enable me to study the western systems of education, I beg to place this petition before them for their consideratio of my presen situation

At the outset I beg to admit that Government are not responsible for my further travels in Europe and America and that if Government should say that inasmuch as I have taken upon myself this responsibility they are not disposed to consider my application, I beg to keep my peace But I be that Government may be pleased to take a prospective view of my serviceableness to the State

While studying the Montessori system in Rome I came in contact with some of the educationists of almost all the civilized nations of the West and learned from them of the great educational movements in their respective countries The whole Western world was and is keenly alive to the great problems of education I quote from the report of the Commissioner of Education of the United States of America, (Chapter 16) "Never before in the history of the world was education the subject of such wide spread national interest as at the present time The relative vigour of nations is no longer estimated solely by the strength of their armaments or their wealth, but in constantly increasing degree by the efficiency and universality of their school provision This fact is emphasized by the numerous commissions sent on world tours to investigate educational systems, and by the international congresses called to discuss principles and methods of public education with a view, in every case, to the improvement of home conditions"

Believing sincerely that our country also needed such an awakening I deemed it a great privilege to follow these educational currents For several years I was in communication with some of the leading educational authorities of the West, and when I came to Europe I was able to realise what I had heard and read Having for my benefit the expert advice from great men in the East and the West I decided as far as I was concerned that in order to make the best study of the educational systems of the West, I must enlist myself as a student of a University where I could command all the facilities required for such an investigation With this in view I applied to several Universities for help and information The German Universities were the best for the purpose but the difficulty of language was in the way while in the British University I could not study education as a special subject without taking some other subjects which had no immeediate value for me Fortunately, America, whose best universities are only a reproduction of German Universities, very sympathetically responded, and not only accepted me for candidacy on the strength of my previous qualification, but also kindly sanctioned me a scholarship in consideration of the long distance I had to cover This good news reached me while I was still in Rome and I instantly informed of this to Government There was hardly time for me to get a reply before I was forced to make a decision Being a firm believer of the truth that one cannot succeed where one cannot dare to fail I decided that I must cross the Atlantic, not without an equally firm belief that my wise and sympathetic Government would uphold my cause when I make it known to them Under these unique circumstances, I do not know whether I could have done anything better In the short interval however, between the termination of the Montessori course and my leaving for America, I went through Germany and France

So far as my purpose is concerned, I am utterly satisfied that I have landed in the University of Chicago which ranking very highly among the American best Universities, is in no way inferior to any German University, especially as an institution best equipped for advanced studies in the science and philosophy of and experimental investigation in, education. Staffed as it is with professors of German training and of wide travel, it is a miniature world wherein the most advanced educational systems of the West are objectively reproduced in the kindergarten, elementary and high school departments Though my object in coming to this University was not primarily to get a higher degree , yet the quality of the work that I have done so far and the nature of the courses of study I have taken are, in the opinion of my professors, such as to lead to the degree of Doctor of Philosophy in education at the termination of my work which will probably be at the end of December 1914 Among these courses of study I have not forgotten to include compulsory and free elementary education, vocational - industrial and agricultural education which I believe are the problems being considered at present in our own country My studies are not confined to the walls of the University but includes also visiting educational institutions-near and far-of this country I have yet a great deal more to do

both in this country and in England, France, Germany and other European countries

I have related the story of my sojourn and its purpose to enable Government to consider whether my travels in the West may be useful to the Educational Department of our State My belief that I shall be able to give the educational department the benefit of my advanced studies and travel has prompted me to approach Government with this petition for part help

Now that I shall be obliged to stay in U S A till December 1914 and then spend six months in Europe, puts off my returning home till June 1915, making the period of my being without any sort of help from Government one year and ten months

I beg, therefore, that Government may be pleased to sanction three hundred pounds for the whole period I shall manage the rest with my own resources

If this sum cannot be sanctioned as a scholarship I beg that it be kindly granted as a loan upon any reasonable conditions, for without it, it is almost impossible for me to realise what I have planned and return to my country.

Also I beg that Government may kindly extend my leave till June 1915 and graciously continue till then my family allowance to my wife

In conclusion, I pray earnestly that the Government of His Highness the Maharajah will not give up a man who has been impelled to undertake this great enterprise at much sacrifice and with the hope of being a more useful servant to his State

I beg to Remain
Your Excellency
Your most obedient and humble servant

S Paul Chinnappa

To His Excellency

The Dewan of MySore Government

Bargalore Irdia

Through the Minister of Education

MySore Government

Bargalore India

Sir

During my visit at Bargalore last year giving the Barrows lectures I was so courteously treated that I am very grateful in memory of those days and make bold to offer a plea for a young man whom I first met there and who is now doing honorable and creditable work in my own university

Mr Chinnappa is an enthusiastic student and is making a strong impression on us here for his earnestness honesty sincerity and devotion to his scientific work We believe that he is worthy of encouragement and we are doing what we can financially for him but he needs also about the amount of money which he has mentioned in his request to you He desires while here to go forward and win his doctor's degree and we believe that he will deserve it in time He needs help at present and we trust that he will make abundant returns for investment in him when he goes back to his own country to serve his own people

With distinguished consideration I am

Grec 10 SC 2

His Excellency

The Dewan, the Prime Minister,

Mysore Government, India

Through the Minister of Education,

Mysore Government, India

Sir

I beg to be allowed to write to you in reference to Mr S Paul Chinnappa who is known to your office and who is at present a graduate student in the University of Chicago, pursuing as you know, his advanced studies in this country under the sanction of your government

It turns out as Mr Chinnappa's studies progress that in order for him to accomplish in the highest degree the purposes that he has in mind, and in order to render the best return to his government, it will be almost imperative that he continue his studies until the close of December, 1914. It is certain that this will require that, in addition to the funds which Mr Chinnappa has now at his disposal for this purpose, some additional resources be made available, and it is for the purpose of interesting your government in this situation that I am taking the liberty of writing this letter

May I say at the outset that in the judgment of those who know Mr Chinnappa in the University of Chicago any assistance that may be extended to him in this direction will be most appropriately bestowed Mr Chinnappa has shown the highest appreciation of the opportunities he is enjoying and has exhibited great ability in the use he is making of these opportunities In the subjects he has pursued here he has obtained uniformly high rank, and what is even more important has shown a broad intelligence in his grasp of his subjects and his ability to apply them to concrete educational problems He has exhibited at all times great enthusiasm and interest in modern educational questions, and especially in the bearing of con lusions to be derived from the study of Western educational systems of education to the situations and needs of his own country

In order to save time and accomplish his results as rapidly as possible, Mr Chinnappa has undertaken a larger amount of work than is customarily carried by a student at one time Nevertheless, as I have already intimated, he has carried this work with great success and with the approval and to the satisfaction of the officers of the University

11

Mr Chi-a,-a's i-me late exhition is without interruption to finish his course and to receive from the University of Chicago the degree of Doctor of Philosophy. At the risk of repetition I will say here that the only obstacle in the way of his accomplishing this is the limitation upon his financial resources, and if your government should see its way clear to remove his obstacle, I am sure that all who know Mr Chi-a-a in the University of Chi-a-o would agree in the judgment that you would be directly furthering the purpose for which Mr Chi-a-a is in this country by extending to him the necessary resources

Sincerely yours,

Nathaniel Butler

Professor of Education,
The University of Chicago.

Encl to 813 13

Letter dated Chicago 26th December 1913 from Mr S Paul Chinnappa to the Inspector General of Education in Mysore Bangalore

---

I suppose by this time you had have received my long letter in which I attempted to describe the modern tendency in Educational practices of the West including Germany France England and America I am sorry it took such a long time to finish it In fact it occupied me quite two months - of course intermittantly I believe also that you have got my petition to Government forwarded with your strong recommendations May I know if it not too much for me to ask how at present Government may be disposed towards it I hope you will not spare any pains to secure me the necessary funds for carrying out a purpose I am sure you have at heart

You will be perhaps surprised to hear of my decision to stay in America one more year It is almost imperative that I should stay not because that I wish to get my Doctor s Degree but chiefly because I shall not be able to finish my study of the Educational Practices of this country within that time The question of Industrial and Vocational Education here is taking a very serious turn just now and I am carefully watching its movements both in its scientific aspect and the administrative and practical bearing So far as I have studied these systems, I think the only salvation for our Educational situation is to adopt either the German or the Americal Systems We have had the cultural type of Education too long and it has done practically very little to help the Hindu Youth to discover himself It is hopeless to rely upon such a type of Education for the growth of Hindu Manhood I hope time will soon come when we become aware of our real situation But so long as our graduates and other intelligent youngmen are satisfied with their present aspirations of life and live a sort of indifferent life towards their needs and the needs of the country nothing can come out of them I wish I were there now to open their eyes to the great possibilities of life, what our youngmen need is just now the opening of their eyes Do you know My dear Sir, I have discovered in all

my

my studies of the peoples I have come in contact with very strange things You would not believe them if I tell you those But they are true I shall only tell you one thing at any rate The Hindu mind as tested in the Psychological and pedagogical laboratories here is vastly superior to any that I have met with I refer to the experiments which I am conducting myself in these laboratories We students are expected to conduct experiments upon one another and those who experimented on me have made written statements to say that we Hindus have a greater concentration quicker perception and firmer grasp and more permanent memory and a heap of other things But what is the use of all this? If in me a poor 33 year old scholar a man submerged by difficulties of life should be declared to be so how much more so will be my colleagues in Mysore who have had better University courses? But if all this superior intellect is turned into cramming purposes and manufacture out of them so many clerks in the Secretariat and other offices what a waste! What an abuse! What a loss!

I cannot for a moment reconcile myself to a situation of quiescence under these circumstances Something must be done soon It is not in the mere adoption of this system of education or that that the question will be solved but in the carefully studying the conditions of our country and those of other countries and then taking those elements of one and another system which will fit into our conditions that the solution will be obtained It is my privilege to make such a study here and other countries that I visit I am fully conscious of my duty to my country and I hope I shall discharge it to the best of my ability It is this wide study that keeps me another year I cannot express all this in a letter or an application to Government I leave the matter to their wise judgment If they do not help me I shall keep quiet and proceed with my work The man who was bold enough to cross the Atlantic with barely sufficient to keep him alive for more than a month can devise some means of livelihood But none the less will my enthusiasm be though my work will be seriously interfered with I know it is very difficult to convince people especially those who do not know the importance

of

15

of the work I have undertaken In their estimation perhaps I am blowing my own trumpet or at least causing Government unnecessary expenses I leave the to their own judgment for I am not responsible for another's opinion But I know this that it will not be long before such people will know what they talk about

I am glad to say that I am making rapid progress with my studies As one of the Professors has remarked in his recommendations on my behalf I am really taking too much upon my shoulders I cannot help it as cannot expect to stay here long enough to take it "Easy" I know of no "ease" in my life everything has been uphill and I am glad of it because the roughness of life has made me man and I am proud of it

Dr Montessori was invited by some Educational Associations of this country and she delivered 12 lectures in important cities last week You will be very proud of hearing that in the Loving Pictures which illustrated her lectures and the "method" I cut a very prominent figure because when those pictures were taken in Rome Dr Montessori thought that I was the best to demonstrate the method and hence I was placed right in the arena Just now I am very popular Invitations are pouring and Literary Chiefs are availing themselves of my presence here

I hope you will send me an official letter of introduction to some of the Educational Institutions which I wish to visit during my travels It will be not only useful but necessary in some cases

May I also request you to send me the following -

1 A copy of the Mysore Census
2 A copy of Mr Bhabha's report of his travels in the West
3 A copy of "Sloyd in Mysore"
4 A copy of the Civil List - the latest
5 Education Departmental Progressive pay lists which contains the number of Elementary Primary and Anglo-Vernacular Schools
6 A copy of the Free and Compulsory Primary Education Bill of Mysore
7 India re Mr Gokhale's

I shall be very thankful if you will order these sent me at your earliest convenience

I once more regret to state that I have not get the ~~xxxx~~ money

16

£84 yet, sanctioned by Government in May and in August 1913 I do not know what the delay is due to If you will kindly ask Messrs Thomas Cook & Sons the Touring Agents of Bombay they will ask their Agents in Chicago to pay me I hope you will kindly do so as I am waiting money very badly

The winter has commenced and it gets awfully chilly The winter in Rome was nothing as compared to this We have some times 4 or 5 feet deep of snow and we have to wade through it if we want to go from place to place One needs very heavy woolen garments to keep warm

The University of Chicago are going to assign me the most difficult work in connection with my Doctorate of which I shall speak of in my next letter In short it is to examine about 200 or 300 American children between 3 and 6 intellectually and measure their mental development by certain tests Then I must educate them say for a couple of months using a certain method and measure again their later development Then I have to postulate two things -

(1) How to obtain the standards of measurements and
(2) What methods of instruction should be in order to secure the maximum development

This is a new departure in Educational Science and I am handling it with much diffidence but nevertheless with much hope From time to time I shall describe my progress This is not all the work This is only the experimental side of the Doctor's work There is good deal of theoretical work besides I believe Dr Mac Dougal of Oxford is doing the same kind of work He is testing 300 children of a little higher age and of parents of different social status. His results are very anxiously being awaited If one has to accomplish the work successfully one has to have as his back ground Introspective Analytical Psychology Social Psychology Genetic Psychology Experimental Psychology and Experimental pedagogy, the Technology of Psychological Experiments and lots of other things

I have not been able to go through this letter after writing it

17

it Kindly pardon my scribbling it

May I pray before closing that you may be pleased to secure the help I have asked for or any other help if Government cannot give me £300 and also to send me the £80 as soon as possible for all of which I remain ever thankful to you

to Government Order No Fl 1130 1192—18 1901,1902 dated 7th February 1903)

provided for in the budget or for additional allotments

Department or Office

Heads of estimate proposed to be reduced				Remarks (Here state fully the reasons for exceeding the allotment and for anticipating savings)
Amount as in the sanctioned estimate	Actual expenditure up to date viz 1-7 1914	Probable expenditure during remainder of the year	Amount available for reappropriation	
6	7	8	9	10
				The payment to Mrs Paul Chinnaiya of Rs 1,200/- was sanctioned in Government orders Nos 9012 3/Edn 233 1. and 1406/Edn 233 12 dated 12th May and 4th August 1913 respectively As this amount was not provided in the current year's budget the grant under this head has to be increased by reappropriation.
7,200	—	700	6,500	As it is not likely that the full amount provided under this head for Scholarships to girls will be utilized this year, the savings may be utilized to meet the extra cost below.
7,200	—	700	6,500	

e the urgency and necessity for expenditure must be fully stated
noting the number and date of sanction

For Inspector General of Education
